

749927-69-3

## 4-BROMO-2-FLUORO-N-METHYLBENZAMIDE

|                    |                                                                                     |
|--------------------|-------------------------------------------------------------------------------------|
| Product Category   | Enzalutamide                                                                        |
| CAS No.            | 749927-69-3                                                                         |
| Molecular Formula  | C <sub>8</sub> H <sub>7</sub> BrFNO                                                 |
| Molecular Weight   | 232.05                                                                              |
| Structural Formula |  |

【Product Nature】 749927-69-3

## 4-BROMO-2-FLUORO-N-METHYLBENZAMIDE

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Product Indicators | <ul style="list-style-type: none"><li>◆ White to Off-White Solid</li><li>◆ Melting point: 125.0 to 129.0 ° C</li></ul> |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
