

85006-31-1

METHYL 3-AMINO-4-METHYLTHIOPHENE-2-CARBOXYLATE

Product Category	Articaine
CAS No.	85006-31-1
Molecular Formula	C ₇ H ₉ NO ₂ S
Molecular Weight	171.22
Structural Formula	 <p>The chemical structure shows a thiophene ring with a methyl group (H₃C) at position 4, an amino group (H₂N) at position 3, and a methyl ester group (COOCH₃) at position 2. The sulfur atom is yellow, the amino group is blue, and the ester group is red.</p>

【Product Nature】 85006-31-1

METHYL 3-AMINO-4-METHYLTHIOPHENE-2-CARBOXYLATE

Product Indicators	<ul style="list-style-type: none">◆ White to beige crystalline powder◆ Melting point 83-87°C
