

98-53-3

4-tert-butylcyclohexanone

Product Category	Spiroxamine Inters
CAS No.	98-53-3
Molecular Formula	C ₁₀ H ₁₇ NO
Molecular Weight	154.25
Structural Formula	 The chemical structure of 4-tert-butylcyclohexanone is shown. It consists of a cyclohexanone ring with a tert-butyl group attached at the 4-position. The oxygen atom of the carbonyl group is highlighted in red.

【Product Nature】

98-53-3

4-tert-butylcyclohexanone

Product Indicators

- ◆ Melting point: 47-50° C (lit.)
- ◆ Boiling point: 113-116 ° C/20mmHg (lit.)
- ◆ Density: 0.893
- ◆ Vapor pressure: 7.91-14.2Paat20-25°C
- ◆ Refractive index: 1.4570 (estimate)Flash point: 205° F
- ◆ Solubility: Chloroform (Slightly), Methanol (Slightly); Almost insoluble in water, soluble in carbonic acid oils.
